## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1 – 6, 8 – 14, 16 – 23 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record, in single or in combination, do not disclose explicitly "wherein the terminal executes a network application including Telnet, file transfer protocol (FTP), or the Web to generate an internet protocol packet and transmit the internet protocol packet to the mobile telephone, and receives a response packet to the internet protocol packet from the mobile telephone to verify network data processing operations of the mobile telephone" as disclosed by claims 1, and 17, and "the terminal requesting cancellation of a packet call established between the mobile telephone and the packet service simulator; the mobile telephone transmitting a call cancellation control message corresponding to the cancellation request to the packet service simulator; and the packet service simulator canceling the packet call to the mobile telephone based on the received control message and transmitting a corresponding response message to the mobile telephone to inform that the packet call is cancelled" as disclosed by claim 11.

Additionally, all of the further limitations in claims 2 – 6, 8 – 10, 12 – 14, 16, 18 – 23 are allowable since the claims are dependent upon the independent claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
